State Digest.

A writ of *habeas corpus* was served upon Marshal LEWIS yesterday, for the release of BOOTH, but the Marshal disregarded it, and refuses to surrender the prisoner. The writ was granted in Racine county.

The dwelling of a family named REAGAN, in Orion, Richland county, in this State, was destroyed by fire Tuesday night, and six children burned to death.

Considerable excitement exists at Boston, owing to the arrest, by U. S. officers, of F. B. SANBORN, who refused to testify before the Harper's Ferry Investigating Committee. A writ of *habeas corpus* has been issued, and served upon the officers. What the upshot of the whole affair will be, time will tell.

The Vermont Republican State Convention has chosen Messrs. E. A. BRIGGS, of Brandon, P. L. WASHBURNE, of Woodstock, E. D. MASON, of Richmond, and E. C. REDINGTON, of St. Johnsbury, as delegates to the National Republican Convention.

GOV. BUCKINGHAM, of Connecticut, is re-elected by upwards of six hundred majority. The Republicans have elected fourteen Senators out of twenty-one, and have a majority of *sixty* in the House!

THE CHARTER ELECTION.

A REPUBLICAN GAIN OF OVER 2,000!!

ALL HONOR TO THE GERMANS!

The result of the election in this city on Tuesday, showing a clear Republican gain of better than TWO THOUSAND, as compared with the vote at the previous Charter Election, proves that the efforts of the Republicans to remove the incubus of Democracy from our city were not in vain. The backbone of Democracy in Milwaukee is broken. Our opponents acknowledge that they were taken by storm, and their lugubrious looks, since election, are indicative of their disappointment. Not one have we seen with sufficient effrontery to claim the result as a Democratic victory. The issue was plainly one of principles, both parties having chosen from amongst their best men for standard-bearers. The party lines were strictly drawn, and the result gives us good ground to hope that even Milwaukee is getting sick of Sham-Democracy. Our opponents had confidently reckoned upon the election of their candidate for Mayor by 2,500 to 3,000 majority, and the balance of their ticket by majorities ranging from 1,500 to 2,500; but instead of that, they have succeeded, by an enormous expenditure of money and labor, in saving the head of their ticket by barely 1,000 majority, their candidate for Comptroller by a trifle more, while they have lost the Treasurership, and their candidate for Attorney escaped defeat by only *one hundred and forty* odd votes.

This result, though not as satisfactory as we should have wished it, is nevertheless highly encouraging, and our Republican friends should draw a profitable lesson from it for the future. Had they generally been as well aware before election as they are now of the ineffable disgust with which the honest Germans of this city begin to regard Irish-Pro-Slavery Democracy, they would willingly have lent a helping hand in the work that was thrown almost exclusively upon the shoulders of a few. From what those few accomplished it may easily be inferred what a united effort of the party would have done. It is well known that some prominent Republicans laughed at the idea of electing a Republican on the city ticket. They are happily undeceived by this time, however, and doubtless will not be so incredulous on this subject hereafter.

In this connection we cannot refrain from expressing our gratification at the fact that many of our German citizens who have hitherto acted with the Sham-Democracy, warmly espoused the Republican cause in the recent contest, and worked hard and earnestly for the election of the Republican candidates. Indeed it was they, in connection with some of our tried and faithful German Republican friends, who did pretty much all the work that was done on the Republican side in the Second, Sixth and Ninth Wards, and there they had to cope with the old Generals of the Democracy, who getting wind of the turn things were taking, concentrated all their efforts upon these wards in the afternoon, and left no means untried to make up for what they had lost in the early part of the day. The natural sympathies of the Germans are as much *with* the principles of the Republican Party as those of the Irish are *against* them, and if they can be disabused of the misrepresentations that have been impressed upon their minds with regard to the Republican Party, they will surely be on our side. CARL SCHURZ and the *Atlas* have been laboring long and faithfully to accomplish this end, and their good work now begins to bear wholesome fruit. With proper efforts and organization on the part of the Republicans of this city, the "Bloody Third" is the only warden which the Sham-Democracy can hereafter hope to hold undisputed sway.

The Vote for Chief Justice.

Our returns of the vote for Chief Justice are still meagre and imperfect. But such as they are they show a close contest and render the result doubtful. We shall have to wait a day or two longer, before we can certainly ascertain which candidate has been successful.

THE JUDICIAL ELECTION.—"From the returns received from the towns in this county," says the *News* "we are enabled to say that the majority for LUTHER S. DIXON for Justice of the Supreme Court will reach the glorious figure of between five and six thousand."

We should like to have the *News* publish those "returns." Those that we have received do not indicate over three thousand five hundred for DIXON in Milwaukee county.

O. JENNINGS WISE, the son of ex-Governor WISE, of Va., and one of the editors of the *Richmond Enquirer*, has become a communicant in the Episcopal Church.

THE VOTE IN THE STATE.

Republicanism Ahead.

Correspondence of the Sentinel.

RUBICON, April 4th, 1860.

MESSRS. EDITORS:—Inclosed please find the result of yesterday's election, and the number of votes which each candidate received opposite his name respectfully. The Judicial ticket is also inclosed with its result. I can vouch for the figures being correct, as I sat at the table while the votes were being canvassed. You will perceive that we gave a clean Republican majority save one officer! Yours for Freedom,

A. E.

P. S. We will look for this in big figures in to-morrow's SENTINEL.

(We should be glad to gratify our Rubicon friend by publishing his figures in full, if we had the room. Suffice it to say that the Republicans elected their town ticket by a handsome majority. The vote for Chief Justice stands as follows: SLOAN, 193; DIXON, 107.—ED. SENTINEL.)

REPUBLICAN VICTORY!—LARGE MAJORITY FOR SLOAN AND TOWN OFFICERS!—The election in this town yesterday (Tuesday) was attended with much enthusiasm and interest. The Republicans won a decisive and effectual victory over all the combined allied forces of the opposition. The forces of the Democracy and the disaffected were never greater than yesterday, yet with all the waste of ink and paper on mongrel, spurious and other tickets, with all the canvassing, with all the petty means and resorts to distract and mislead their ranks, the Republicans elected their whole ticket by an average majority of over 100! Sloan received a majority of 96. These Republican victories are but the key-notes of the great national harmonious tune of Freedom and Union, to which the Republican party moves in perfect time.

Importance of a Comma.

Mr. BLAKE, M. C., from Medina, a few days since introduced a resolution instructing the Judiciary Committee to enquire into the expediency of passing a law that shall "give liberty to every human being, and interdict slavery wherever Congress had the power," &c. Republicans voted against the resolution on the ground that by it even criminals would be let out of jail; and so it would read, according to the punctuation. It seems, however, that Mr B. did not put in that comma after "being," as appears by his explanation which follows:

Mr. Blake—I wish to call the attention of the House to a resolution which I had the honor to introduce yesterday, for the purpose of preventing misapprehensions. I will read the resolution:

"*Resolved* That the Committee on Judiciary be, and the same are hereby, instructed to inquire into the expediency of reporting a bill giving freedom to every human being."

There is a punctuation there—a comma—"and interdicting slavery wherever Congress has the Constitutional power to legislate on the subject."

I wish to say to the House that I put no comma there; that it was all one sentence. I know no person, I am acquainted with no man, who claims that we have any control over slavery in the States, and I certainly did not have in my mind that we should interfere with it there at all, and I was careful to avoid the appearance of such a thing in my resolution. I simply desire now to call the attention of the House to the fact in reference to this punctuatiog.

ANOTHER MIRACLE IN ITALY.—A miracle—a mighty miracle—has just been wrought at Pozzuoli, and the Bishop, the Lord Lieutenant, the Syndic, the Judge and all the police authorities and agents, have witnessed, certified and registered it. A fire burned down the church of St. Januarious, in Pozzuoloi, on the first day in Lent. A strong wind from the sea saved the chapel in which the sweating stone is preserved, and the saint (or the fire) caused the said stone to run blood in profusion, some of which the Bishop caught with cotton wool.

GEN. LANE OF OREGON.—It is said that Gen. JOE LANE rests his hope for the Presidential nomination at Charleston upon the possible reversion of support from other candidates, as he will go before the Convention with no positive strength. Mr. BUCHANAN has regularly adopted him as his preference, and is the open advocate of his pretensions, hoping by some such accident to prolong the rule of his dynasty. It is said that Secretary THOMPSON, of the Interior Department, also supports him.

WASHINGTON'S scarf was exhibited in the College Chapel, at Marietta, Ohio, at the students' celebration of his birthday on the 22d of February. The scarf was worn by the hero of the revolution throughout the struggle for American Independence, and is now in possession of family descendants in Marietta.

TWELVE HUNDRED MALE, and one hundred and forty-two female prisoners are at present locked up in the prison at Auburn, being the largest number that has ever been within the prison walls.

Census of 1860—Questions to be Answered.

On the first week of June, the work of taking the census commences. It is desirable that it be taken with great accuracy, and to enable the Assistant Marshal, who will be engaged in the performance of this duty to have their work well done, it has been suggested that the publication of the questions necessary for all heads of families to answer would be of great benefit. With this view, we publish the following list, which we believe to be correct:

In the first place it is necessary to write down the name of every person whose usual place of abode on the first of June, 1860, was in the family.

The age of each, sex and color; whether white, black or mulatto.

Profession, occupation or trade of each male person over fifteen years of age.

Value of real estate owned.

Place of birth, naming state, territory or country.

Name of every person who died during the year ending June 1, 1860, whose usual place of abode was in the family; the age, sex and color, whether white, black or mulatto; married or widowed; place of birth, naming the State, Territory or County; the month in which the person died; profession, occupation or trade; disease or cause of death.

THE TWO CANDIDATES for Governor of Indiana met in Indianapolis, last week, to consult about the appointments and preparations for a joint canvass. They decided to make twenty speeches together, beginning as soon as possible after the Chicago Convention, at such points and in such order as might be agreed upon by the friends of each, who were to consult and determine as soon as possible. Before and after the joint canvass, each may speak when and where he pleases.

MISS ELLEN BATEMAN, daughter of Mr. H. L. Bateman, and sister to little Miss Kate Bateman, the "Evangeline" of the Winter Garden, was married on the 29th of March, at Lyons, France, to a Mr. Greppo, a gentleman of that place.

AN ENGLISHMAN, who has resided in Rochester for some years, and who had a handsome little property, has disposed of all, converted what he had into cash, and has left for England, with the intention to wager his money on Sayers.

THE CITY.

HAD IT not been for the indiscretions of the *Free Democrat* and the *S'ntinel*, in making the canvass too personal against Mr. LYNDE, his majority would not have exceeded 500.—*Wisconsin*.

The *Wisconsin* is the most discreet sheet in the West, we will admit. Its neutral nature making it a sort of hybrid between respectable caution and personal blackguardism. Its inside is filled with half-digested opinions, and its outside with contradictions of them. It seldom ventures to express so decided an opinion as the one above; and when it does, it "flops" over as far into the extreme of falsity. Every article which appeared in the SENTINEL, speaking of Mr. LYNDE, contained a compliment to his integrity and personal worth. The *Wisconsin* damaged Mr. LYNDE, last year, by supporting him for Supreme Court Judge, and helped him, this year, by opposing him as a candidate for Mayor.

THE BOOTH CASE.—Yesterday Sheriff LANGWORTHY served upon Marshal LEWIS the writ of *habeas corpus* granted in Racine county. United States Marshal LEWIS disregarded the writ and refused to produce the body of SHERMAN M. BOOTH—of which fact return will be made by the Sheriff. We noticed yesterday that the guard about the doors and passages leading to the prison had been strengthened by the addition of several stalwart men, who walk up and down the marble pavements, with each a brace of pistols conspicuously displayed.

CLOSING EXERCISES AT THE FEMALE COLLEGE.—The closing exercises at this popular institution of learning were completed yesterday afternoon, in the presence of a large concourse of our leading citizens, who were highly delighted in witnessing the rapid progress made by the students under the supervision of the present able and efficient instructors. The principal and most interesting feature of the exercises, aside from the lecture, were the prize compositions.

It was understood that two prize were to be contended for by two seperate classes, containing five young ladies each. The first prize by five graduates of the College; the second by five of the present students. No little interest was manifested by the students and citizens in relation to the first prize. This class was composed of five of the most accomplished young ladies in our city, who were educated in this institution.

The Committee appointed to examine the Compositions was composed of some of our leading divines and jurists, who, after a very thorough examination, decided that Miss BELLE FLANDERS was rightly entitled to the first prize. The subject chosen was "Truth; its Blossoms and Fruits," which was handled in a very able manner, and would have done honor to some of our most accomplished writers of the day. It elicited general admiration from all present, and was truly an able production, abounding in brilliant ideas beautifully expressed. It was read in a clear, distinct voice, which added much to its beauty. Miss JONES received the second prize. Her Composition was indeed a very able one, was well received and is meriting much praise.

The lecture, by the Rev. Mr. CORNING, before the "Curious Society," was highly interesting. The subject was, "The Study of the Beautiful." We exceedingly regret that we have not room for a full report of this lecture, which was one of the ablest productions ever delivered before this Society. It must be repeated on some other occasion, for it is too good to be lost.

ANNUAL REPORT OF THE WISCONSIN STATE AGRICULTURAL SOCIETY, read by J. W. HOYT, Madison: CARPENTER and HYER Publishers.

Vol. 5 of the Transactions of the State Agricultural Society, is received. It is filled with a vast amount of information, and is illustrated with several spirited cuts. The mechanical execution of the work is very poor. The leaves are bound together upside down, and the matter seriously impaired by errors.

We learn from this volume that there are thirty-three Agricultural Societies in the State, with an aggregate amount of $2,669 89 remaining in their Treasurer's hands.

The total amount of the receipts of the State Society for the year 1859, was $11,637 07, and the expeditures $11,637 07.

CITY TEA STORE—CHANCE FOR A BRILLIANT DISCUSSION.—We apprehend an intensely interesting discussion will arise between the *Sentinel* and the *Wisconsin* as to the merits of GEORGE'S CITY TEA SIGNE. We state some of the arguments in advance:

SENTINEL.—The *Wisconsin* is mistaken. GEORGE'S *is* the only Tea Store. The *Wisconsin* had better attend to its apple rolls.

WISCONSIN.—The *Sentinel* is known to be such a liar that it is beneath our notice. The *Sentinel* is evidently fishing for a dollar-and-a-half bat.

THE MILWAUKEE FAMILY GROCERY.—We desire to state that Mr. GEORGE, proprietor of the new establishment in Young's Block, does not wish his store called the "City Tea Store," and since we have been informed of the paternity of the title we don't blame him. It was our mistake, not his. The *Wisconsin* states that there is a grocery on Milwaukee Street somewhere which claims the title. We will bear it in mind. At the same time, we advise all who want good tea to go to the new store.

APPOINTMENT OF A GENERAL TICKET AGENT.—Mr. H. O. WILSON, formerly connected with the Detroit and Milwaukee Railway Co., has been appointed General Ticket Agent for this city of the three great Eastern lines *via* Chicago. Mr. WILSON is too well and favorably known throughout this city and State to need any recommendation. The interest of the route will undoubtedly be advanced by so good an appointment.

DREADFUL ACCIDENT.—A boy by the name of WILLIAM ATKINSON was killed yesterday afternoon about six o'clock, at TUCKER'S Planing Mill, on Walker's Point. He was playing with some companions near the main shaft, and in some manner his clothes were caught by it and he was carried around in such a manner as to strike his head upon the ground causing immediate death.

WE ARE IN RECEIPT of a sheet which is at once solid and lively—with a brace of well written leaders, flanked by pithy, pointed paragraphs. It local department is well filled, and its news columns fresh. This sheet bears the undeniable mark of E. A. CALKINS and is called the Madison *Argus & Democrat*. Well, CALKINS can do it. We wish him success.

DR. JEWETT, of Massachusetts, will lecture on Temperance, at the Academy of Music this evening. Admission free. Dr. J. is an eloquent and able speaker, and all who attend may rely upon hearing something both interesting and instructive.

THE SWALLOWS.

AFTER BERANGER.

A captive on the Moorish plain,
With gaze turned upward to the sky,
Beholds, while bent beneath his chain,
The happy swallows twit'ering by.
He knows they've left their summer haunts,
And murmurs, lying on the sand,
"Sweet birds, whom winter drives from France,
Pray, tell me of my native land!

Three years, at each return, I've seemed
Of you some souvenir to pray,
From that dear valley where I dreamed,
In halcyon peace, my youth away.
Where bends the crystal-rivulet,
That threads the lilac-scented dale,
Is there a cottage standing yet?
O, tell me of that happy vale!

Perhaps you've nested in the eaves,
Beneath the roof that sheltered me,
And pilled there the love that grieves
A mother's heart unceasingly.
Dying, she thinks each sound the steps
To hear so long in life she strove;
She listens now—and now she weeps!
O, tell me of that mother's love!

My sister—is she married yet?
And have you seen the merry throng
Of youths and maidens there, to greet
The happy bride with nuptial song?
And those brave lads who fought with me,
Where battle's death-shafts thickest flew,—
Have all returned unharmed and free?
O, tell me of those comrades true!

Perhaps the battle's changing storms
Have through that valley poured the fray,
And o'er those comrades' slaughtered forms
The hostile stranger takes his way.
From my own hearth the rightful heirs
Drives forth with insults and with blows;—
In fetters here—no mother's prayers,—
Oh! tell me of my country's woes!"

HORRIBLE SUICIDE.—The body of elegant and *blaze* young Fontaigne, whilome leader of fashion and lounger of the *champs des* Spring Avenue, was found yesterday floating in the Menominee. The corpse was instantly recognized by the unrivalled coat made by SHUYER, and also by the splendor of his neck-tie known to be from RUSSELL'S. In the pockets of his fashionable pants (made by FRIEND Bros.) was one of VAN COUT'S repeaters still beating, and in perfect order, also an unapproachable card case from MATSON & LOOMIS. On conveying his remains to the Station House, some warmth was found to be retained by the body but the medical men in attendance ascribed it entirely to the magnificent under shirt—sold only by RUSSELL. An examination was entered into as soon as possible, and the facts, as far as elicited, are that the unfortunate young gentleman committed the rash act in a fit of chagrin at seeing his rival with a pair of BRADLEY & METCALF'S boots on.

It is somewhat aggravating to the friends of the deceased to know that had proper exertions been made he might have been saved but the inertness of the bystanders is ascribed entirely to the fact that they did not use WOLF'S Exilerating Schiedam Schapps—sold by all the respectable druggists.

THE MILWAUKEE FEMALE COLLEGE.—We spent an hour, both pleasantly and profitably listening to a couple of compositions and the examination of some classes of young ladies, at the Female College Tuesday afternoon, and would suggest, to such as have leisure, that they can taste an intellectual feast there, to-day, which would be eagerly sought for and highly prized did it but come in the shape of "a lecture from a foreign gentleman of established reputation," and, mayhap, learn some lessons of sound practical wisdom, at the same time that they perform a duty they owe themselves and the community, by displaying an interest in an institution in every way worthy their support.

We are pleased to learn that the College, under the control of its present accomplished and efficient corps of teachers, has assumed the position which such an institution in our city should hold, in the front rank of the educational enterprises of our State, and trust our citizens will see to it that it does not lack the material aid requisite to keep it there.

ST. GEORGE'S SOCIETY.—At the last monthly meeting of the above society, held April 2d, the following persons were elected officers for the ensuing year:

President—W. HENRY HOLLAND.
Vice President—ROBERT DAVIS.
Chaplain—Rev. DAVID KEENE.
Physician—Dr. THOS. HATCHARD.
Treasurer—EDWARD RODDIS.
Recording Secretary—GEORGE SOUTHWELL, Sr.
Corresponding Secretary—GEORGE C. STEVENS.

Board of Managers—JOSEPH BAKER, WILLIAM GREENSLADE, THOS. MASON, WILLIAM J. FORSTER, WILLIAM G. SMITH, THOMAS THOMAS, ARTHUR DADD.

☞ THOSE HAVING BUILDINGS TO LET, or in want of tenements, should bear in mind that the prices for Advertising in the SENTINEL have been reduced, and that Advertisements of tenements "TO LET," or "WANTED," will be inserted in our special columns under those heads, ONCE for FIFTY CENTS, and THREE TIMES at the low price of ONE DOLLAR—thus affording persons who want *tenants* or *tenements* on the 1st of May, an easy and cheap mode of finding them without paying commissions or spending days in search of Houses. This is a reduction of ONE HUNDRED PER CENT. on our last year's rates for this class of Advertisements

THE SENTINEL, having double the circulation IN THE CITY, and more than treble OUT OF IT, of any other paper here, renders it far the cheapest and most desirable medium in Milwaukee for all classes of Advertisements.

THE SENTINEL.

DAILY, TRI-WEEKLY & WEEKLY

RUFUS KING, EDITOR.

THURSDAY MORNING, APRIL 5, 1860

The Sentinel for the Campaign.

In order to circulate Republican matter among the people during the coming campaign, we have concluded to furnish the WEEKLY SENTINEL for six months for fifty cents. To clubs of fifty and upwards, where all the papers are sent to one address, at the rate of forty cents per copy, or $20 for fifty copies. Now is the time to circulate the documents and disseminate the Republican documents far and wide.

A Memorable Struggle.

Tuesday last was an eventful day in the political history of Milwaukee. It was the first time since the organization of their party that the Republicans of this city have nominated and supported a straight ticket. Many doubted the policy of the step, and few, if any, anticipated success. But the result is eminently satisfactory. As compared with previous trials of party strength in this city, the returns show a very large Republican gain. Heretofore, our Democratic opponents have beaten us by from two to three thousand majority. *Now*, their average majority is below one thousand; and even that would have been overcome, if the Republicans had believed success *possible*.

Fifty more votes in the Fifth, Sixth and Seventh Wards would have carried the Common Council, and more than that number of Republicans omitted to vote. But still the result is all that could be wished, and teaches the lesson that with effort and organization, not only the State of Wisconsin but the City of Milwaukee can be carried for the Republican cause against any and all opposition.

The Homestead Bill.

Everybody knows that the Homestead Bill is pending in Congress; but probably everybody does not know that it is in two different forms. The House has passed a bill introduced by Mr. Grow, and receiving the support of the Republicans. The Senate has before it for action a bill introduced by Senator JOHNSON, of Tennessee, which is more acceptable—or rather, we should say, less objectionable—to the Democracy of the South.

Mr. GROW's bill admits to participate in its benefits, any person over 21 years of age, who is a citizen of the United States or has declared his intention to become such. It throws open all lands subject to pre-emption, and its benefits are conferred upon any one who has filed a pre-emption claim.

Mr. JOHNSON's bill confines its benefits to heads of families who are citizens of the United States, or had declared their intention to become such *before the passage of the act;* and the lands subject to its provisions are the alternate sections opened for private entry.

Mr. GROW's bill is calculated to encourage the settlement and foster the growth of Colonies. A company of people from the Eastern States or from Europe, containing farmers, mechanics, professional men, &c.,can go out and locate on lands lying adjacent to each other, and the ultimate result is a thriving village surrounded by thrifty farms. This, experience has shown, is the most advantageous method of emigration, and it is now the favorite one with New Englanders and Germans.

Under Mr. JOHNSON's bill, this cannot be done. The United States reserves every alternate section, so that as a general thing, each family must either be a mile distant from every other family, or if it wants neighbors, must sell them land to live on. This will naturally tend to encourage separate Plantations instead of Villages.

But the most objectionable feature about Mr. JOHNSON's bill is its exclusion of adopted citizens from its benefits. All Emigrants who may hereafter arrive in the country, or who have not yet declared their intention of becoming citizens, are debarred from obtaining homesteads at the West under it, and compelled to remain in the already crowded localities of the East. There is no good reason for this discrimination, and it benefits neither the emigrant or the native, nor the country at large, to make it. It is more acceptable to Congressmen from the Slave-holding States, because it will not encourage the growth of Free Territories and States, which the House Bill will, directly and strongly.

"SIOUX" SCOOPED!—A. F. PRATT, the notorious Madison corresponded of the *News* and one of the Democratic delegates to the Charleston Convention, who has been elected President of Waukesha village for two or three years in succession and made an annual "hiss" over the same, was handsomely "laid out" by the People at the charter election on Tuesday. Mr. H. N. DAVIS, his Republican opponent and a true man, beat him by about 50 majority. Good for Waukesha!

MADISON.—The Republicans of Madison, like their brethren in Milwaukee, made a good fight on Tuesday. DAVID ATWOOD, their candidate for Mayor, came within *six* votes of defeating GEORGE B. SMITH, the Democratic nominee. Last year the Democrat. le majority in Madison was some four or five hundr d. Thus does the ball "roll on."

MANITOWOC.—The Republican Charter Ticket, is elected, excepting President and one Supervisor; DIXON has 260 majority for Judge.

Two Rivers gives about 200 majority for DIXON, and elects a part of the Republican Town Ticket.

SHEBOYGAN.—We learn that Sheboygan elects BILLY WILLIAMS, a staunch Republican, for Mayor, by some 200 majority, and gives DIXON, for Supreme Court Judge, a little over 400 majority.

ARMS DISTRIBUTED TO THE STATES.—The official statement just completed by H. K Craig, at the request of Senator Hemphill, shows that the following arms have been distributed to the several States and Territories, under the act of 1808, omitting the fractions:

Maine	2,400	Mississippi	4,000
New Hampshire	12,800	Tennessee	23,000
Massachusetts	34,000	Kentucky	20,000
Vermont	1,600	Ohio	30,000
Rhode Island	2,400	Michigan	3,200
Connecticut	9,500	Indiana	7,400
New York	45,000	Illinois	10,000
New Jersey	12,000	Wisconsin	1,600
Pennsylvania	57,000	Missouri	5,000
Delaware	2,000	Iowa	2,000
Maryland	15,000	Arkansas	800
Virginia	30,000	Texas	1,500
North Carolina	16,000	California	2,000
South Carolina	14,000	Minnesota	1,500
Georgia	16,000	Oregon Territory	2,000
Florida	1,100	Washington	2,400
Alabama	7,000	Nebraska	2,500
Louisiana	5,700	Kansas	2,500

Utah has never drawn her compliment. She is entitled to 2,000. District of Columbia, 1,000. Whole number of muskets and rifles distributed prior to the 30th of June last, 448,192. Texas was not only required to disarm on entering the Union, but has only received in return the pitiful number of 1,500 muskets and rifles. All the other States retained their arms on the formation of the present Government.

DO THEY BURN NEGROES AT THE SOUTH?—The following paragraph appeared in the Montgomery (Ala.) *Mail*, a week or two since:

"THE MURDER OF ALFRED JONES.—We hear that it has now been ascertained who committed this horrible deed, on Saturday night last, in this county. Two of Mr. Jones' own negroes, it is said, confessed yesterday that they murdered him. It seems two or three days previous to this murder, Mr. Jones gave one of his negroes (Adam) a whipping, and that the negro then said, 'it would be the last one he would ever give him,' and persuaded another boy to hold his master's horse, while he knocked him on the head with an axe. The two negroes, we understand, will be burned to death on Friday, the 16th inst."

How King James' Bull was Received in the House.

Correspondence of the N. Y. Tribune.

WASHINGTON, March 29, 1860.

The President's message, protesting against Mr. Covode's investigation, created intense excitement in the House. He has done nothing so foolish since writing his Pittsburgh letter. The idea of the President pleading jurisdiction like a criminal at the bar, and seeking to avoid inquiry by technical pretexts, is discreditable to the office. The whole tone of this document is conceded to be weak and puerile in spirit. Mr. Sherman briefly, but effectively, vindicated the power of the House to pursue the investigation in every way, and cited the clauses of the Constitution bearing upon this power as the basis of impeachments. When Mr. Craig, of North Carolina, asked why the inquiry had not been made thro' the Judiciary Committee, Mr. Sherman promptly answered that the House was the judge of its own propriety, and desired no instruction from the President.

Mr. Bocock attempted to break the feeling excited by the message, but without attempting to justify the extraordinary doctrines which it asserted. Mr. Covode informed the Democratic side that the resolutions preferred no charges against the President. His committee was raised to investigate allegations made by the President himself as to the use of money at elections. In answer to the general character of the resolutions, he cited the Democratic example in the XXXIVth Congress, when two members were expelled upon charges less specific. The whole effort of the Democratic side was to assert the sanctity of the President above the House, and re-affirm the odious idea of despotism that "the King can do no wrong!" Our friends are willing to join that issue before the country. The message has gone to the Judiciary Committee, where it will be thoroughly overhauled.

Correspondence of the Cincinnati Gazette.

WASHINGTON, March 29.

The Message of the President sent into the House to-day, denying the right of a committee of that body to make the inquiries contemplated by the Covode Committee, is the latest sensation, and has set everybody agog. It is pronounced the most extraordinary document every laid before a legislative body by an executive officer, and is the assertion of a kingly prerogative, and must arouse the indignation of the country. It is furthermore regarded, and I think with great propriety, as strong presumptive evidence of the President's complicity in the gross corruption with which it has been charged that he was connected. A strong discussion is going on in the House as I write, on the motion to refer the message to the Judiciary Committee, which will probably be done.—The Message was entirely unexpected, and is supposed to have originated with the President himself.

Correspondence of the N. Y. Tribune, March 30th.

Leading Democrats in and out of Congress condemned the President's message as weak and unnecessary, beside being calculated to place them in a false position before the country as obstructing an investigation on the eve of a Presidential canvass. They complain, too, that while it was submitted to the Cabinet, no consultation was held with members of the House, upon whom its effect was most immediately to fall. It is regarded as most unfortunate in both a party and personal sense.

Mr. Nelson intended yesterday to offer resolutions denouncing the President's insulting message as violative of the rights of the House, and he may seek some future opportunity.

Washington Matters.

Correspondence of the Buffalo Express.

WASHINGTON, March 26.

The peculiar state of political matters here cannot fail to inspire every earnest Republican with feelings of profound pleasure. As the dates for the holding of the great National Conventions at Chicago and Charleston, approach, the feelings of all persons interested become intense.

Of the two rival candidates for the nomination at Chicago—Bates and Seward—it gives me pleasure to state that the tide of political affairs seems to flow decidedly in favor of the latter. This, as every true Republican must admit, is as it should be. The great national sentiments propounded by him in his last speech, seem to have captivated a great portion of the Third Party, who, together with many of the direct opposition, declare it to be his best effort, and to have accomplished more for him than anything he has done for years.

In the Charleston Convention, the chances of Judge Douglas, as regarded by eminent political men here, are very faint. All the Southern States will reject him, as likewise the Northern Doughface party. He must gain the favor of these, and become the white slave of the South, in order to make his chances good; and having advanced as far as he has, this I regard as almost an utter impossibility.

I can assure you that nothing could afford me greater pleasure than to see these two men—Seward and Douglas—pitted against each other, with no Third party in the field; and then, I feel that we should have a Republican President, and free Territories.—Not only this but we should have a protective tariff, our manufacturing and agricultural interests would be improved, and our country, placed upon its own resources, which are unbounded, would be in that prosperous condition which all true Americans so earnestly long for.

Mr. Spaulding, the Member from your district, returned here on Saturday, having been absent, at his home for a short time. It is with feelings of pleasure that I refer to his ability and untiring energy. He is always at work, and his work is always productive of the greatest good.

Hoping that the Republican Clubs may be speedily organized, if they are not already, I shall seize every opportunity to inform you of matters as they are considered here.

SUICIDE OF A BOY.—On Sunday, the Coroner held an inquest upon the body of a boy named John Steege in the town of Elk Grove, who came to his death by suicide under the following painful circumstances:

His father for a long time has been addicted to the use of liquor to excess, and while in his drunken fits was accustomed to beat his children in a savage manner, especially his boys, who were respectively thirteen and eleven years of age. About a week ago the elder boy—the deceased—told his brother that if his father whipped him again he would hang himself.

On Friday last, about noon, the father came home intoxicated, and found the boys at play when he expected to find them chopping wood. He became enraged, and gave them both a severe beating with a strap. At five o'clock he sent the boys to do some "chores." The oldest went to the cow shed, a short distance from the house, and the youngest went for the cows and drove them up to the shed. The animals, however, appeared terrified and would not enter, and the boy went in to see what the trouble was, and found his brother hanging by the neck, the rope fastened around a rail in the roof. He untied it and the body fell to the ground. He then took the rope off and ran to the house. His mother brought the body in, but all efforts to resuscitate it were in vain.

The jury, after hearing the evidence, returned the following verdict:

"That the said John Steege came to his death by hanging himself in the cow shed, near his father's house, on Friday, the 30th inst., about five o'clock, and that it is the opinion of the jury that he did so in consequence of the harsh treatment and abuse he received from his father.—*Chi. Times, Apr. 3.*

DEATH OF M. JULLIEN.—By the *Arabia*, at this port yesterday, we hear of the death of M. Jullien, the eminent *chef d'orchestre*. The information is conveyed to us in a brief paragraph from the English papers, and bears no evidence of authenticity beyond what it obtains as an item in the London *Times*.—Glad as we should be to hear that, like other rumors of a similar character concerning M. Jullien, this, too, is but a device of a sensation penny-a-liner, we fear may turn out sadly true. Not long since M. Jullien attempted suicide as an easy riddance of troubles which beset him, and it is not therefore remarkable to hear that a mind so disturbed has at last found repose in death. In a lunatic asylum seems to have ended the career of one of the most popular musicians of the present day. He died, says the report on the 16th of the present month in a charitable institution of Paris.—*N. Y. Times, Saturday.*

MASSACHUSETTS PRODUCTS.—Massachusetts has always been considered a manufacturing State, but there is invested in farmland and improvements, in neat stock and horses, and the usual appendages of a farm, four millions of dollars—more capital than is invested in manufacturing, machinery, and buildings. The total product of the farms of Massachusetts is about $35,000,000 annually. The increase in farm products from 1845 to '55 was as follows:

Fruits alone	$1,000,000
Products of the Dairy, about	1,200,000
Potatoes	1,213,576
Corn (more than double)	1,629,945
Horses and neat stock	6,645,204
Root crops	592,611
Other farm crops	16,405,000

THE ADAMS CO. INDEPENDENT sounds a warning note in relation to fire.

"Marsh fires have devastated this whole region. We hear of considerable hay, much fence and other combustibles being destroyed by fire. People have no idea of the mischief they invariably do when they touch fire to these dry Wisconsin marshes. Lo, now it rolleth forth with impetuous fury, and bellke it destroyeth ye hay-stack, ye pig-sty, ye wood-pile, and sometimes ye poor man's tenement; and is not quenched till ye flood-gates of heaven spring a leak and put it out."

Proposed Re-Union of the Methodist Church.

We observe that the subject of a re-union of the Methodist Episcopal Church North and South is being extensively discussed in the various papers of the Church; and the present year, being the Centennial Anniversary of Methodism in the United States, is regarded as the most fitting time for its accomplishment:

A correspondent of the Richmond *Christian Advocate*, signing himself "A Baltimorean," takes up the question in a vigorous and practical manner, and submits a plan as initiatory to the developement of some scheme which may be fraught with practical results. He proposes the assemblage of a "Conference of Re-union," the delegates to be elected by each and every Annual Conference, so that every section and shade of opinion in the country shall be represented. The delegates to consist of both clerical and lay delegates, and to meet in some central city near the border line of the two churches, (say Washington City) and after mature deliberation and due consideration, report a plan for re-union, to be submitted to all the Conferences for ratification. If the plan proposed should fail to receive the approval of two-thirds of the Conference in the M. E. Church North, and two-thirds of the Conference in the M. E. Church South, then such plan should be null and void, and of no effect. On the other hand, it is suggested that if the plan proposed should receive the approval of two-thirds of all the Conferences of each Church, then re-union should be declared effected according to whatever plan the Conference may have proposed.

The writer also suggests that any difficulty in the Episcopacy might be remedied by the election of one Bishop from every two or three Conferences, who shall always be the presiding Bishop of said Conference, assisted by as many other Bishops as might choose to be present. By this means, it is contended that every section of the Church and of the country would have its *pro rata* Episcopal representation and jurisdiction. The editor of the Richmond *Advocate*, in referring to the proposition of his Baltimore correspondent, exclaims:

"Alas! we fear it is impossible. We see not how the two brothers, this Jacob, and that Esau, can ever be reconciled on the question of slavery. We despair. But with regard to our Baltimore brethren, we are ever vascilating between hope and fear."

Col. Bowie in Mississippi—A Terrible Fight between Forty Men.

An old Mississippian furnishes the following to the Woodville (Miss.) *Republican*:

"The famous fight, in which forty or more gentlemen were engaged, in 1828, is still remembered in Natchez. Col. Jim Bowie, the famous fighter and inventor of the knife which bears his name, used to spend a great deal of his time in Natchez. He was challenged by a gentleman of Alexandria, La., whose friends, to the number of twenty or more, accompanied him to Natchez, to see fair play, knowing that Bowie was a desperate man, and had his own friends about him. All parties went upon the field. The combatants took their places in the centre, separated from their friends in the rear, far enough not to endanger them with their balls. Behold the battle array thus: Twenty armed Louisianians, fifty yards behind their champion and his seconds and surgeons, and opposite them, as far behind Bowie and his seconds and surgeons, twenty armed Mississippians. Behold the heights of Natchez, thronged with spectators, and a steamer in the river, rounded to, its decks black with passengers, watching with a deep interest the scene.

The plan of the fight was to exchange shots twice with pistols, and to close with knives, Bowie being armed with his own terrible weapons. At the first fire both parties escaped. At the second the Louisianian was too quick, and took advantage of Bowie, who waited for the word. At this, Bowie's second cried 'foul play,' and shot the Louisianian dead. The second of the latter instantly killed the slayer of his principal. Bowie drove his knife into this man. The surgeons now crossed blades, while with loud battle cries came on the two parties of friends, the light of battle in their eyes. In a moment the party was engaged in a fearful conflict. Dirks, pistols and knives were used with fatal effect, until one party drove the other from the field. I do not know how many were killed and wounded in all, but it was a dreadful slaughter. Bowie fought like a lion, but fell, covered with wounds. Four months he lingered at the Mansion House before he fully recovered."

PURITY OF CHARACTER.—Over the beauty of the plum and the apricot there grows a bloom and beauty more exquisite than the fruit itself—a soft, delicate flush that overspreads its blushing cheek. Now if you strike your hand over that, and it is once gone, it is gone forever; for it never grows but once. The flower that hangs in the morning impearled with dew—arrayed as no queenly woman ever was arrayed in jewels—once shake it so that the beads roll off, and you may sprinkle water over it as you please, yet it can never be made again what it was when the dew fell silently upon it from heaven! On a frosty morning you may see the panes of glass covered with landscapes—mountains, lakes and trees blended in a beautiful, fantastic picture. Now lay your hand upon the glass, and by the scratch of your finger, or by the warmth of your palm, all the delicate tracery will be obliterated. So there is in youth a beauty and purity of character, which, when once touched and defiled, can never be restored—a fringe more delicate than frostwork, and which, when torn and broken, will never be re-embroidered. A man who has spotted and spoiled his garments in youth though he may seek to make them white again, can never wholly do it, even were he to wash them with his tears. When a young man leaves his father's house with the blessings of his mother's tears still wet upon his forehead, if he once lose that purity of character, it is a loss that he can never make whole again. Such is the consequence of crime. Its effects cannot be eradicated, it can only be *forgiven*.

MORTAL ENCOUNTERS WITHIN A SANTA FE FIRM.—A few years ago there was a firm at Santa Fe, New Mexico, under the name of Beck & Brent. While returning from a trading expedition among the Indians, at the Jornado del Muerto, Mr. Brent's party were attacked, and he received a wound which proved fatal. At Santa Fe, a year ago, Preston Beck, one of the firm, had a fight with a man named Gorman, and both died of their wounds. On the 22d of February, Dr. Beck, one of the firm, was killed by Henry O'Neill; Beck wanted O'Neill to sign a certain paper, O'Neill insisted upon having a day to consider upon the matter. The doctor said he would kill him on the spot, if he did not sign it at once. O'Neill again refused, and the doctor advanced upon him with a pistol in one hand and a knife in the other. Henry O'Neill parried the knife, but was at length driven to the necessity of killing the doctor. Some time before his death he made a will in favor of Miss Nellie Shoemaker, to whom, it is said, he had been engaged in marriage, as had been his brother, Preston Beck, before his death took place. By this will the lady becomes possessed of an estate worth from fifty to one hundred thousand dollars.

INSANITY THE RESULT OF A JOKE.—There is now in a female lunatic asylum at Hammersmith, England, a lady of exquisite beauty, who was driven mad by being suddenly startled by her maid. The lady is the wife of a wealthy sharebroker residing at Cavendish square. One evening about six weeks ago, she strolled in the dusk into her husband's library to procure a book. The lady's maid saw her enter the apartment, and in a mere frolic concealed herself behind the window curtains until her mistress had placed her hand upon the work she had come in search of, when she suddenly sprang upon her with a loud shout. The lady was so astounded by the shock that she was struck almost senseless. Delirium ensued; confirmed madness followed, which has ever since continued without abatement, to a degree dangerous to all who come near her.—Her propensities are fierce and vicious; she tries to bite at all who come near her, and it is more than probable she will never recover her reason.

STRENGTH OF WOODEN WATERPIPES.—Some experiments have lately been made in Rochester, to determine the strength of wooden water pipes, handed with iron. Hydrostatic pressure was applied under the supervision of practical and scientific men. The pipes tested were sixteen inches in diameter externally, with a bore of ten inches. They were four feet long, and bound with iron hoop one inch wide and one-sixteenth of an inch thick, wound about them spirally, the interval between each turn being four inches. The pipe withstood a pressure of 400 lbs. per square inch, or 925 feet head of water pressure, and burst at a pressure of 960 lbs. It was also demonstrated that unsupported wooden pipes will bear an internal pressure of 68 to 134 lbs. to the square inch, equal to a head of water of from 145 to 207 feet.—These pipes had external diameters of 31-2 to 20 inches, with bores of 1 1-2 to 8 inches.

WHAT JOHN CHINAMAN DID WITH THE FAT MAN.—There is an amusing story of a Chinese Barnum, who got hold of an American, Daniel Lambert, whom he entertained most hospitably. For some days Jonathan was the observed of all observers. Endless crowds of visitors appeared to do him honor; so much so that these well attended levees became a great nuisance. The American ultimately found that his host had been making a good thing of him, as he had been exhibited for payment to the crowds of staring Celestials, who were supposed to be simply doing him honor.

THEY who "pine" in their youth never can look "spruce" in old age.

The Mysterious Trial at Paris—The Unreliability of Human Testimony.

Another of those mysterious warnings which seem now and then to be sent by Providence to cause the reason of man to pause, when sitting in judgment on the crimes of his fellow man, has occurred lately in the Court of Cassation, and occasioned another moment's suspense in that self-satisfied vanity which pronounces the verdict rendered by the wise men of the public tribunals to be perfect, and beholds the so-judged criminal led out to death, with an entire conviction of his guilt, inasmuch as he has been pronounced so by the men who have judged him.

Six years ago, two men of Finisterre were accused of burglary under peculiar circumstances. A cottage had been entered during the night, the aged couple by whom it was inhabited beaten, bruised, and well-nigh murdered, in order to induce them to reveal the secret of their hoard, reported in the neighborhood to be of considerable importance. The two burglars had blackened their faces and covered their dress with long white skirts, so that neither face nor figure could be recognized. Suspicion alighted upon two of the neighbors, Baffet and Lornain, who were immediately arrested. A search in their dwelling led to the discovery of a shirt stained with mud and gore; the servant of the old people recognized their voices, their height, their gesture; and, more than all, the doctor, that dispenser of life and death in such cases, decidedly recognized a scratch behind the ear of one of the accused, into which had filtered some grains of soot, which still lodged there.

In vain the wretched men protested against the accusation. What greater proof of their guilt could be given? Lornain was condemned to hard labor for life, and despatched to Cayenne; Baffet to 20 years servitude, and forthwith carried off to the hulks at Brest; and all was forgotten. But on the 22d of January the same jury, to a man, met again to judge the same crime with the same witnesses, the proofs of guilt, and the same determination to do justice to the criminals.—Nothing was altered but the accused, for the two men condemned six years before were now recognized as innocent. But no means of reparation exists now. Both the unjustly condemned have sunk beneath the hardships of their lives and the shame of their condemnation. The one expired a miserable exile at Cayenne, and the other a heart-broken galley slave at Brest; and what is terrible, is the fact, that, as in the case of these victims and others, no possibility exists of rehabilitating the memory of these men, which will go down to posterity covered with opprobrium—an obstacle to all advancement to their children throughout the department—a by-word and scorn the whole country round.—*Par. Cor. London Times.*

THE YANKEE GIRL.

BY JOHN G. WHITTIER.

She sings by her work at that low cottage door,
Which the long evening shadow is stretching before,
With a music as sweet as the music which seems
Breathed softly and faint in the ear of our dreams!

How brilliant and mirthful the light of her eye,
Like a star glancing out from the blue of the sky!
And lightly and freely her dark tresses play
O'er a brow and a bosom as lovely as they!

Who comes in his pride to that low cottage door—
The haughty and rich to the lowly and poor?
'Tis the great southern planter the master who waves
His whip of dominion o'er hundreds of slaves.

"Nay, Ellen—for shame! Let those Yankee fools aspin,
Who would pass for our slaves with a change of their skins;
Let them toil as they will at the loom or the wheel,
Too stupid for shame, and too vulgar to feel!

"But thou art too lovely and precious a gem
To be bound to their burdens and sullied by them—
For shame, Ellen, shame!—cast thy bondage aside,
And away to the south, as my blessing and pride.

"O, come where no winter thy footstep can wrong,
And where flowers are blossoming all the year long;
Where the shade of the palm tree is over my home,
And the lemon and orange are white in their bloom.

"O, come to my home, where my servants shall all
Depart at thy bidding and come at thy call:
They shall heed thee as mistress with trembling and awe,
And each wish of thy heart shall be felt as a law."

O, could you have seen her—the pride of our girls—
Arise and cast back the dark wealth of her curls,
With a scorn in her eye which the gazer could feel,
And a glance like the sunshine that flashes on steel!

"Go back, haughty Southron! thy treasures of gold
Are dim with the blood of the hearts thou hast sold;
Thy home may be lovely, but round it I hear
The crack of the whip and the footstepe of fear!

"The sky of the South may be brighter than ours,
And greener thy landscapes, and fairer thy flowers;
But dearer the blast round our mountain which raves,
Than the sweet summer zephyr which breathes over slaves.

"Full low at thy bidding thy negroes may kneel,
With the iron of bondage on spirit and heel;
Yet know that the Yankee girl sooner would be
In fetters with them than in freedom with thee!"

Selling Cattle.

From the Country Gentleman and Cultivator.

MESSRS. EDITORS:—I feel contrained to say a few words more upon this subject, although other persons comid do it greater justice. Yet "in the multitude of counsellors, there is safety." I will therefore mention a few things which, to my mind, give this system the preference over that of pasturing, and hope some one will "enlarge" and "improve" upon it:

1. THE FENCES.—You are aware, Messrs. Editors, that fences are a heavy tax upon the profits of a farm—the material and the labor of keeping them in repair, under the most favorable circumstances, amounts to quite a sum annually. But in many localities fencing stuff is getting to be scarce, is very expensive, and difficult to obtain, even at high prices and this evil will continue to increase for time to come. Now, by adopting this method of keeping stock, the greater part of this expense may be saved, as but few fences are required; and not only so, but the land now occupied by them, and also in many cases, by a variety of shrubs and flowering plants—such as elders, willows, Canada thistel, mullens and the like may be made available in raising valuable crops. This would add much to the appearance of the farm, and the land thus gained for tillage would, in many instances, go far to keeping the stock upon it.

2. THE SAVING OF LAND.—I think there can be no question about this. In my opinion one acre of *good* clover will afford as much feed as four acres of the average pastures—corn and gorghum about the same; with millet the difference is not quiet so great. There may be other crops that could be as advantageously raised, but these are all that I have tried to any extent. If this be so, it is evident that the stock upon the farm may be greatly increased, or there will be quite an additional number of acres for other purposes; often two crops may be raised from the same ground—as where rye is sown in the fall, and fed off early in the spring, another crop may follow it. Early corn may be followed by millet or turnips, and later corn by rye for the following spring and so on.

3. IT IS BETTER FOR THE STOCK.—Cattle are often turned to pasture too early in the spring, before the feed is sufficiently large to give to them a good "bite," or sufficiently nutrolous to do them much good; the consequence is, if there happens to be a dry spell in the spring, as is often the case, they will be very likely to have a short feed through the summer. Of course, they will thrive but little, and will scarcely get over a hard winter's keep, before they enter upon another. When pastured, they are subject to all the vicissitudes of the season—the usual drouth in July and August diminishes, often very materially, the quantity of milk, and checks the growth of young stock. But if soiled, the case is different. Where proper provision has been made for them, that they have their food regularly, and all they require, they are in a great measure exempt from the changes thus mentioned.

The flow of milk is more uniform—the only diminution being the natural one as they advance in the season, and I think the quality of the milk richer. Butter made from cows thus kept, is decidedly of a better quality, and in hot weather has not that oily appearance so often the case with it at that season of the year. I presume this is owing to the fact that the cows have not had a long drive, it may be, to pasture, and been exposed to the hot sun through the day, and so become heated, affecting their milk. Whatever may be the reason, we have had no difficulty in making butter, in the hottest weather, that would work into nice rolls when it has stood a sufficient time after being salted—this I think an important consideration. We use neither ice or cold water in making butter. (Our butter is furnished to families weekly in rolls.) Similar advantages attend the keeping of young cattle in this way—they grow faster, and it tends to make them gentle—if heifers, they become docile and quiet milkers with very little trouble.

I will mention a circumstance that will convey the idea I wish to, perhaps better than I have done it. A friend called upon me the latter part of last September, who has a farm of about two hundred acres, and I think milked at the time 16 cows—we had just passed through a "dry spell"—he said his cows did not average over three and a half pounds of butter a week, while we were making, at the same time, nearly six pounds to the cow. The reason was his cows were *pinched* and mine had *enough*.

4. A MUCH LARGER QUANTITY OF MANURE IS MADE.—This is the last thing I shall mention, and though last is not least in importance. The manure heap is the farmer's "bank," where he can make his "deposits," and present his "drafts"—his "deposits" must be equal to or exceed his "drafts," else he will be out of "funds." If then the stock may be considerably increased by soiling, he has the means of enlarging his "pile," and thus preventing his "drafts" from "protest."

It should be the aim of every farmer to make, save, and apply to his land everything within his reach that will enrich it—this, it seems to me, is one of the great secrets of successful farming; and I am of the opinion that after one has tried this method of keeping his stock, he will be astonished at the amount of manure made annually, and for this and other reasons, will be quite unwilling to abandon the system.

But as a good deal is said upon the subject of making and applying manure, in the agricultural papers—urging farmers to look to their interests—it is needless in me to say anything more in regard to this matter.—Every one knows that to raise large crops, his land must be capable of producing them, and I have no doubt that the soiling of cattle will contribute largely towards producing this result. J. L. R.

BLACK HAMBURGS IN THE OPEN AIR.—In the March number of *The Horticulturist*—by the way a most capital number—Mr. R. G. Pardee says that the Black Hamburg grape is and can be successively cultivated in the open air, and refers to some grown in Union Square, New York, which he describes as "fine, large and well-ripened." Another instance is mentioned, where in nine years with one exception, "good crops of luscious Black Hamburgs, were obtained from outdoor vines, without even laying the vines down." Mr. P., in this latter case, saw only the vines, not the fruit, and has but parole evidence for the statement. We hear of no decided success in attempts to cultivate this grape in the open air, but many failures. We are trying the experiment ourself, and will be able, at some future period, to report.—Our vines are carefully laid down, and are in a favorable situation.

NEW VARIEGATED-LEAVED TREE.—Foreign journals speak of a new variety of the *maple*, styled *Acer negundo variegata*, which has lately been introduced to the market. It is said to resemble the ash-leaved maple of our plantations, except that the leaves are strikingly variegated. It is reported to be as hardy as any of the maples.

TELEGRAPH!

REPORTED BY THE N. Y. ASSOCIATED PRESS FOR THE DAILY SENTINEL.

Washington Matters.

WASHINGTON, April 3

Mr. Augustus Schell appeared before Mr. Covode's committee to-day, and refused distinctly to produce the list of contributors to the electioneering fund raised by the N. Y. Hotel Committee, without assigning any sufficiently satisfactory reason. He was asked by Mr. Covode whether he did not confer with the President, and members of the Cabinet, between the period of his first examination, when he omitted this list among his papers, and expressed a willingness to submit it, and the second examination next day, when he proposed a written substitute for his testimony of the first day, declining to deliver that testimony, and endeavored to evade this inquiry by stating that he had seen many persons between these two days, but when pressed directly, he had seen the President and members of the Cabinet, and it was after conference with them that he concluded not to exhibit the list to the committee.

At the meeting of the Pacific Railroad Committee last night, a definite conclusion was arrived at by the adoption of the following resolution offered by Mr. Curtis, the chairman:

Resolved, That the road shall start from two points, one on the Western boundary of the State of Missouri, and the other on the western boundary of Iowa, with two converging lines bearing westward, and uniting within 200 miles of the Missouri river, and thence proceeding by a single track line by the nearest and best route to the bay of San Francisco, or to the navigable waters of the Sacramento in the State of California.

Capt. Jarvis writes under the date of the 21st of March, that Miramon's bombardment had damaged the city considerable, with but little loss of life.

The commander of the French fleet who had addressed him concerning the capture of the Mexican steamers in offensive terms, subsequently apologized for the tone of his correspondence.

No action has yet been taken by the Government in regard to the prisoners captured with the Mexican steamers.

Great Excitement in Boston.

BOSTON, April 4—3 P. M.

Mr. F. E. Sanborn was arrested at Concord by U. S. officers last night, under a requisition from the Senate Committee. Judge Sprague, of the U. S Supreme Court has issued a writ of *habeas corpus*, and the serving is now progressing in this city.

LATER.—Watson Freeman Jr., U. S. Marshal, and Silas Carlton, Deputy Sergeant-at-Arms of the U. S. Senate, called at Sanborn's house at 9 o'clock last evening. He refused to accompany them, when he was handcuffed and taken to a carriage at the door, during which he struggled violently and the members of his family cried murder, &c. The excitement spread, and the town bells were rung, collecting a large crowd. Rufus Hosmer, a citizen, died suddenly. It is supposed from the excitement the affair occasioned. Sanborn was forcibly taken from the officers by the crowd an kept out of their power till a writ of *habeas corpus* could be obtained. It is said the writ has been prepared for some time in anticipation of the arrest. Deputy sheriff John B. Moore served the writ.

Vermont Republican State Convention.

NORTHFIELD, April 4—3 P. M.

Hon. Levi L. Underwood, of Burlington, presided over the Republican State Convention, when the following delegates were chosen to the Chicago Convention: E. N. Briggs, of Brandon, P. L. Washburn, of Woodstock, E. D. Mason, of Richmond, and E. C. Reddington, of St. Johnsbury.

WALKER'S POINT, MILWAUKEE.

THE SUBSCRIBER HAVING RECENTLY purchased the above property, and refitted and refurnished the House throughout in a superior style, is now prepared to take in old friends and the accommodating public generally.

The Lake House, WALKER'S POINT has been erected on the extreme south bank, South of the District, which for convenience and quietness is unequaled in Milwaukee. The Cable is NOT USED, thereby rendering the rascality of fare cheating impossible.

COMMERCIAL.

WEDNESDAY P. M., April 4, 1860.

Receipts by Railroad for the 24 hours ending noon to-day include:

Flour, bbls	784
Wheat, bus	8,851
Barley, bus	830
Corn, bus	719
Oats, bus	120

Flour was a trifle firmer to-day, and some 300 bbls changed hands at $5@5,37 for choice country to fancy city Extras. We heard of no transactions in low grades.

The wheat market was quiet, but firm, and there were a few small sales of No. 1 and 2, at a slight improvement; the former selling at 99@$1 in store, and No. 2 at 97c on the track. No change in Extra, and but a very moderate demand to-day.

Shelled corn went slowly at 48c. Nothing reported in other coarse grains.

STATEMENT OF FLOUR AND WHEAT IN STORE IN CANADA WEST.—From Messrs. CLARKSON, HUNTER, & Co.'s Market Review we take the following statement of flour and wheat in store between Hamilton and Port Hope, including five ports on Lake Huron, March 17th:

	Flour, bbls.	Wheat, bus.
Toronto	48,015	228,842
Hamilton	90,000	25000
Port Credit, Whitby, Oshawa Darlington, New Castle, Port Hope, and Port Granby	43,360	185,000
Storehouse on the line of the G't Western Railway, (estimated from observation)	150,000	100,000
De Grand Trunk, do do	30,000	150,000
Lake Huron Ports—Meaford, Owen Sound, Southampton, Goderich, Bayfield		125,000
Total quantity in store	191,815	814'342

A cut half this quantity of wheat is fall wheat. As regards future receipts of wheat, the general opinion seems to be, that there is about one-fourth of last year's crop in the hands of the farmer.

CHICAGO MARKET, APRIL 3D.—Receipts of the articles named, at Chicago, yesterday, were as follows:

Flour, bbls	904
Wheat, bus	96,05
Corn, bus	56,076
Oats, bus	1,721
Barley, bus	944
Rye, bus	257

The *Press & Tribune* says:

There was a fair inquiry for Flour to-day, but buyers and sellers were about 10c apart, and the transactions were limited at $4,70@5,00 for fair to choice Spring Extras. Wheat opened very firm, and holders refused to sell at yesterday's prices, but toward the close the market became easier and closed quiet, with sales of old receipts No. 2 Spring at 96@96½c, and fresh receipts at 95c in store. The receipts of Corn to-day amount to upwards of 56,000 bushels, and owing to this fact, buyers insisted on a decline, which was partially accoded to; but before the close a reaction took place, and the prices of yesterday were sustained —the sales being liberal at 40c for prime Rives Yellow afloat; 42½@43c for fresh receipts No. 1; 41c for old receipts No. 1; and 40c for new receipts Rejected.—Oats were dull and heavy—the transactions being limited at 30c delivered. Rye was in better supply and 1@2c lower—80@83c being the range of sales.—Barley quiet at 60@71c for good to prime. Hungarian grass dull and 5@10c lower. Millet used in active demand and buoyant. MARINE ITEMS.

WEDNESDAY, P. M.

A STEAM REVENUE CUTTER FOR LAKE MICHIGAN.—At the meeting of the Chamber of Commerce to-day, a committee of three was appointed to memorialize Congress in behalf of that body, for a steam Revenue Cutter on Lake Michigan. As Milwaukee is designated the Revenue Station on this Lake, and as the subject of substituting steam for sail vessels in the Revenue service is now being considered by the Department, it was deemed proper for the Chamber of Commerce of this city, to take some action towards obtaining a steam Revenue Cutter on Lake Michigan. The present Revenue Cutter is almost entirely useless, and the substitution of a steam vessel in its place, would doubtless be of great benefit to the commerce of the Lake. We understand that Collector CLASON fully concurs with the object of the memorialists, and has already urged the necessity of the change, upon the Department at Washington.

INEXCUSABLE CARELESSNESS.—The officers of the steamship *Milwaukee* inform us that there was *no light* in the light house at the entrance of the harbor, when they came in last night, and its absence came near being of serious consequences to the steamer. The light house being pretty low, the helmsman, naturally enough under the circumstances, mistook a light on the beach for the beacon, and the mistake was not discovered until the steamer had got within about twice her own length of the end of Dousman's old pier, north of the straight cut. As the light house keeper has hitherto performed his duty faithfully, this inexcusable omission astonishes us very much.

DUNKIRK OPEN.—Mr. JAMES FORSYTH, agent of the N. Y. and Erie Railroad at Chicago, received a dispatch yesterday, informing him that Dunkirk is again free of ice, and that boats had arrived and departed yesterday.

FOR THE LOWER LAKES.—The Props. *Michigan* and *Buckeye* leave Chicago on Saturday for Oswego and Ogdensburgh. They will carry only a limited amount of freight.

THE STRAITS.—The Chicago *Press & Tribune* published a communication from Mackinac, dated March 21st, expressing the opinion that the Straits will be open about the 5th of this month at farthest, but from all previous accounts from there, we had no hopes of their being open before the 30th or 15th.

JUNIUS JUDSON,

PATENTEE AND MANUFACTURER OF

JUDSON'S PATENT

GOVERNOR VALVES,

FOR REGULATING THE

MOTION OF STEAM ENGINES,

WARRANTED THE MOST PERFECT Governor of Steam Power in the world, and like all really great inventions, is simple. Manufactured by Judson & Snow, at Rochester, N. Y., Selye Buildings, near R. R. Depot.

Shop Rights for sale.

CAUTION TO INFRINGERS.

Patent issued to the United States, Nov. 8th, 1859. Reissued, 4th, 1854. Second Patent, March 4th, 1851. Patented also in Great Britain and the Canadas, 1859 and 1860.

This improvement consists in making regulating valves to open with a rapidly increasing ratio of opening, by increasing the width of the openings made in the valve—or by accelerating the opening motion of the ordinary valves in use—or by combining increasing width and increasing motion in the same valve. My patent Valves and Governors are so arranged as to give the resistance to the piston's motion, (or reaction of the engine,) at the point of open valve just the exact amount of apparatus necessary to counteract that resistance; and from this point of equilibrium to the point of resistance, notwithstanding that the action of the governors is continually decreasing in its velocity.

Therefore it is evident the action of valves combined with governors, as heretofore used. And as this effect can be produced by many different mechanical devices, (apparently not similar, but really identical with my improvements,) by which infringers have imposed upon the public, I therefore caution and request all persons interested, to examine carefully all alleged improvements in valves or governors, to see if the application of this truth or principle, first discovered by myself, is not appropriated to their advantage, and thereby prevent fraud upon the purchaser and inventor, both of which are at present much annoyed by the sale of worthless imitations.
